CAPABILITY STATEMENT

Minerva Cyber Technologies is a thoroughbred cybersecurity services and solutions company composed of expert Government Contractors and Cybersecurity Professionals. A Woman Owned Small Business (WOSB) and Disadvantaged Small Business, Minerva is deeply skilled with hands-on experience in all aspects of federal cyberspace operations. We bring low-density, high-demand skillsets and high-impact results for our clients. Our mission is to protect our nation's digital assets from bad actors and to provide advanced capabilities to better arm the cyber warrior. **Key differentiators:**

- Real-world planning and full-spectrum response to nation-state threats including cutting-edge capability development
- Developers of key cyberspace strategy, policy, doctrine, plans, and teams
- Pioneers and thought leaders with holistic insights and success across strategic, operational, and tactical levels of execution

CORE CAPABILITIES

Cyberspace Operations: Operations Support, Planning, Hunt/CPT/CMF, PIT/Spec. Tech, Information Ops

Cyberspace Engineering: Systems Arch/Eng, Zero Trust Architecture, DevSecOps, Hybrid Poly Cloud, Innovation

Cybersecurity: RMF/SSP/ATO, IR, SOC/CSSP, Vulnerability Assessments, Pen Test, Threat Intel, Digital Forensics

SMARTWORKS LAB

Our lab is comprised of employees and partners with extensive Title 10 & Title 50 Cyber Mission Force experience. We believe that innovation flourishes when our experts are encouraged to explore, test, and push the boundaries of what is possible. Our

TALARIUM Security Suite offers advanced capabilities for secure file transfer and secure cross platform communications.
